## Table of Contents

- 1 - [Corp.MyCo.com](#)
- 2 - [No Domain](#)

**Corp.MyCo.com**

Indicate if you believe the computer either 1) has ePHI, 2) does not have ePHI, or 3) is used to access other systems that may have ePHI and not as a true workstation. Systems used as access gateways (typically to EHR and other medical data systems) should not store data or be used as a workstation. If you do not know for certain the computer contains or does not contain ePHI, it is best to error on the side of indicating that it can potentially contain ePHI. You must indicate a response for every computer to complete this worksheet.
